LESSON 3: HOW DISEASES SPREAD IN CHILDCARE SETTINGS

CLASS DISCUSSION/SELF-STUDY EXERCISE

Think through the following. Imagine the various processes involved in them. This will help you to begin to imagine how germs and diseases can spread if the processes are flawed in one way or the other.

a. Sneezing
b. Food Preparation
c. Infant and Toddler Feeding
d. Diapering
e. Toileting
f. Mouthing of things
g. Touching of things, floors and Surfaces.
h. Ventilation and Fresh Air
i. Insect Bites
